WARRANTY**

Affordable & Easy to Operate

Specially Designed for SMEs

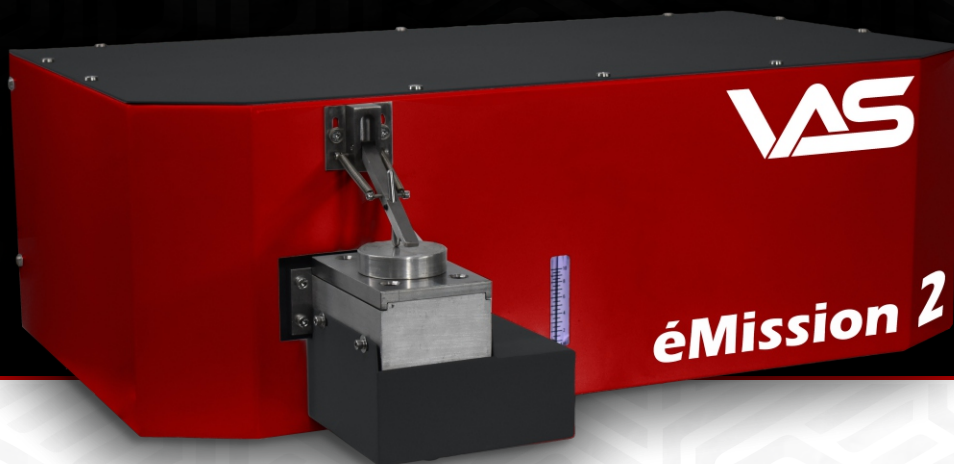

Customised for 10 Base and up to 22 Elements

Robust & Durable Built

1 Year Warranty

éMission | Al

éMission | Fe

éMission | Cu

éMission | Zn

- Most Economical Spectrometer Ever!
- Specially Designed & Developed for SMEs
 - Standard 15+ elements - Upgradable up to 22 elements at extra cost
- Upgradable for additional Base / Alloy Calibration
- Minimalistic Design Philosophy
- Low Cost Efficient Performance
- Most Easy to Operate Spectrometer Ever!

Technical Specifications

Excitation Source

- Fully software controlled excitation source
- Maintenance free

Software & Analysis

- Factory calibrated

Optical System

- Specially Designed Optics

Spark Stand

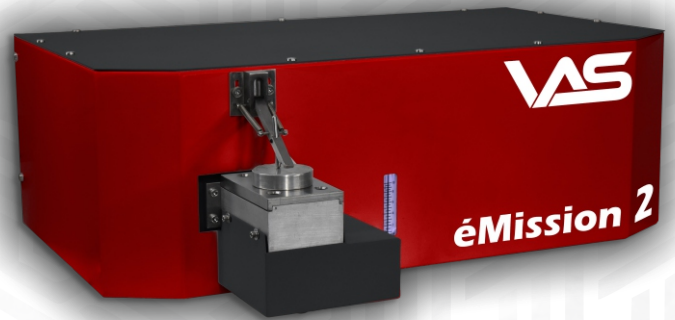

- Specially designed C shaped sample plate to prevent warping and deformations over long periods of usage
- Tungsten electrode
- Automatic sample clamp - Flexible for large and small sample size

Environmental Requirement

- Operating temperature 15 to 32°C

Electrical Requirement

- 230V AC, 50Hz (maximum 320VAC continuous)
